

12. Resolver - user.ts / Query - me()

[#graphql](#) [#resolver](#) [#authentication](#) [#query](#) [#mikroorm](#) [#backend](#)

This query returns the current user that is logged in and null if you're not logged in

resolvers/user.ts

```
@Query(() => User, { nullable: true })
async me(@Ctx() { em, req }: MyContext) {
  // you are not logged in
  if (!req.session.userId) {
    return null;
  }

  const user = await em.findOne(User, { id: req.session.userId });
  return user;
}
```
